

Environmental Policy Statement

Gel Engineering Ltd has a responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all our business activities. The company will comply with all relevant environmental legislation, regulations and other requirements relevant to our business activities.

We recognise our key impacts to be:

- energy use
- raw material use
- waste generation
- water use
- transport

We will:

- Meet all necessary compliance requirements
- Adopt the highest environmental standards in all areas of operation, meeting all relevant legislative requirements
- Assess our organisational activities and identify areas where we can minimise environmental impact
- Minimise waste through careful and efficient use of all materials and energy
- Purchase sustainable products wherever feasible
- Raise environmental awareness through the training and development of our employees, suppliers and subcontractors
- Adopt an environmentally sound transport strategy
- Assist in developing solutions to environmental problems
- Continually assess the environmental impact of all our operations
- Review and revise this policy as necessary at regular intervals not exceeding 12months
- Use methods of construction that are sympathetic to the environment
- Listen to and respond to the needs of local communities and our stakeholders
- Prevention of pollution through efficient use of resources and materials
- Continually identify areas for improvement of the management system

Through this policy we seek to develop and maintain trust as a responsible and forward-thinking Company, able to exceed the expectations of our clients. Though the Managing Director has ultimate responsibility for Environmental Management, all employees have a responsibility within their own areas of work, to help to ensure that our strategy on minimising our impact on the environment is a core value of the company.

The organisation will set Gel targets for the improvement which will be monitored by the senior team as part of the management meetings.
